Function

The Complete
Fume-Control Solution

Clean-Air Tech

SpeedVac Technology

- A direct 4-point extraction system that instantly removes grease
- Traps cooking smoke before it spreads

Smart SMOTION (smoke + motion) Detection

- 180-second Turbo Vacuum sweeps away all traces of smoke using 460 Pa of air pressure
- Turn the hood on or off with a wave of your hand

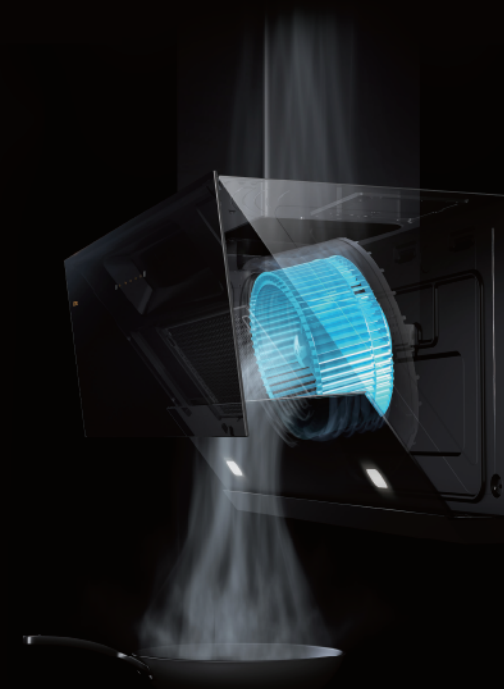

Umbrella Containment Field

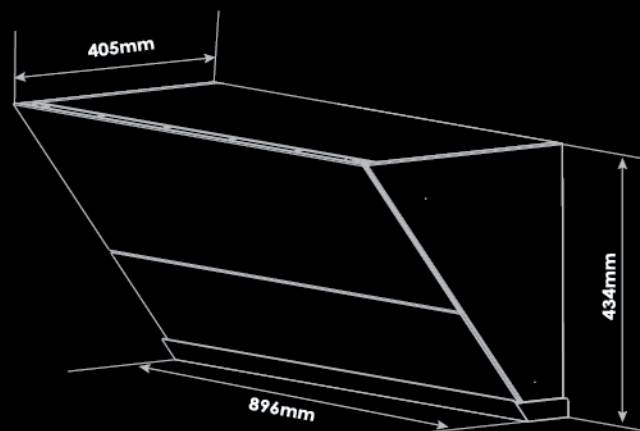

- 900mm chamber and 310mm-long plate contain the spread of cooking smoke in a confined area
- Adjustable 135° cover prevents grease from coming in contact with your face
- Blocks cooking smoke without obstructing your view

MagEasy Filter Design

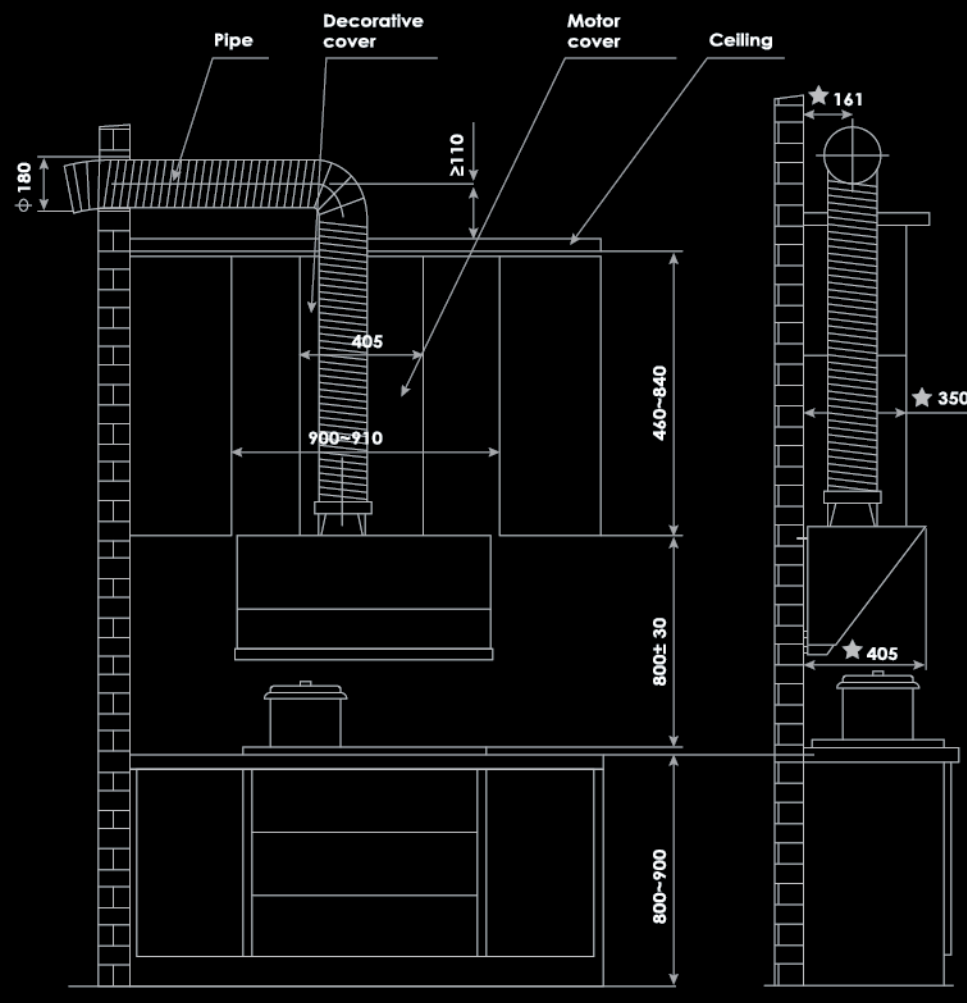

- Unique magnets running through the grease filter allow for easy attachment and detachment when necessary

FOTILE JQG9031

Power Supply	240V/50Hz
Unrestrained Airflow (m³/h)	1750
Noise (dB)	55 (max normal level)
Max Static Pressure (Pa)	460
Motor Type	AC
Motor Power (W)	358
Illumination Power (W)	1.5W*2
Mode of Operation	Touch & Wave
No. of Speeds	2 + Boost
Lock Screen	Y
Boost Function	Y
