

HAPPINESS STARTS IN YOUR KITCHEN

Since its inception in 1996, FOTILE has carved a niched in the industry of being the No 1 high-end kitchen appliances brand in China, specializes in developing built-in kitchen appliances like hoods, hobs, ovens, combi ovens, microwave ovens, steam ovens, dishwashers and water purifier.

We have the largest R&D center in the world, covering an area of **8000sqm**. With technology, innovation design and performance as the key factors in Fotile manufacturing, we have achieved **16000+** patents in product and **4100+^{**}** in invention, bringing innovative and good quality product to over **17 millions** of families around the world. FOTILE commitments to excellence not only bringing satisfaction to our customers, we have won a numerous international accolade namely RedDots design awards, IF Product Design Award that uplifting the industry standard of designs and product innovations.

At FOTILE, our business is built on the foundation of product innovation and creating kitchen appliances that are functional, stylish and family oriented. That is why FOTILE is constantly inventing, designing and creating extraordinary products while maintaining its reputation as a leading kitchen expert that puts families at the first place.

Marking a remarkable milestone, FOTILE has launched its first largest kitchen appliances gallery named the "Fotile Style," located at TaoJiang road, Shanghai, in year 2012. This gallery showcasing the brand's most prestigious kitchen appliances. A 'futuristic corner' is introduced in this gallery, allows visitors to take a glimpse into some of FOTILE'S most innovative technology.

With over 20 years of experience in servicing Malaysian customers, FOTILE Marketing Sdn.Bhd as the sole distributor of FOTILE kitchen appliances in Malaysia, has the expertise to offer functional and stylish kitchen appliances that suited to Asian cooking.

Today, FOTILE Malaysia enjoys its position as a reputable premium kitchenware brand in Malaysia with a strong following of happy and satisfied customers. We strive to innovate our product and service, providing a full spectrum of cooking solutions that caters to every Malaysian kitchen need.

- Dusseldorf, Germany; Osaka, Japan; Ningbo, China ; three global centers
- Revise international standards* for extractor hoods

FOTILE, the world's top kitchen expert

Focusing on solving the problems of kitchen oil smoke in **29** years

China has the world's most demanding kitchen environments—and FOTILE is at the forefront of solving their challenges.

- Sells well in more than 30 countries around the world.
10,000+ families choose FOTILE every day
- 16,000+ patents for kitchen appliances*
4100+ patents for invention*, leading technological innovation in the kitchen industry
- Dusseldorf, Germany; Osaka, Japan; Ningbo, China;
three global centers for technological innovation
- Revise international standards* for extractor hoods

Each time, we are leading the transformation of the industry.

Since the advent of kitchens, oily and greasy fumes have been an annoying problem for gourmet cooks.

FOTILE spent 29 years exploring about the mystery of making a kitchen extremely clean and promoting the continued iterative evolution of high-end range hoods;

What kind of high-end range hood can actually meet the needs of a kitchen?

The answer seems to lie hidden in every exploration of the unknown.

Traditional range hoods

They are positioned away from smoke sources, reducing suction efficiency at the edges. Additionally, they are prone to rapid smoke saturation, challenging to clean, and suffer from oil drip issues when used with flat grids.

Years 2014—2021

FOTILE-V Series (Pioneer in side suction range hoods)

An in-depth study of the smoke movement law has allowed us to find the [Golden Smoke Control Zone]. For the first time, we subverted the traditional way and delved into capturing fumes from the source.

Years 2015—2019—2021

FOTILE-W Series (Innovative in top suction range hoods)

With innovative invention "the butterfly wing ring suction plate" Detour near suction, no smoke saturation or oil drip. World's first "smart regulation" Intelligently captures fumes according to the volume of smoke, creating an era of unmanned driving.

Year 2021

FOTILE-X Series (Master in the evolution of range hoods)

Invents a new way, remodels the smoke circulation path Ultra-thin, ultra-low, ultra clean, changes once again.

Straight At The Source, Intelligent Cooking Smoke Extraction

Close Proximity, Endless Extraction

Closer than ever to the source to prevent cooking smoke from escaping

Ever closer, ever cleaner. With a closer extraction of only 325mm from the stove - almost half the distance of a traditional range hood - the FOTILE X-Series captures cooking smoke straight at the source.

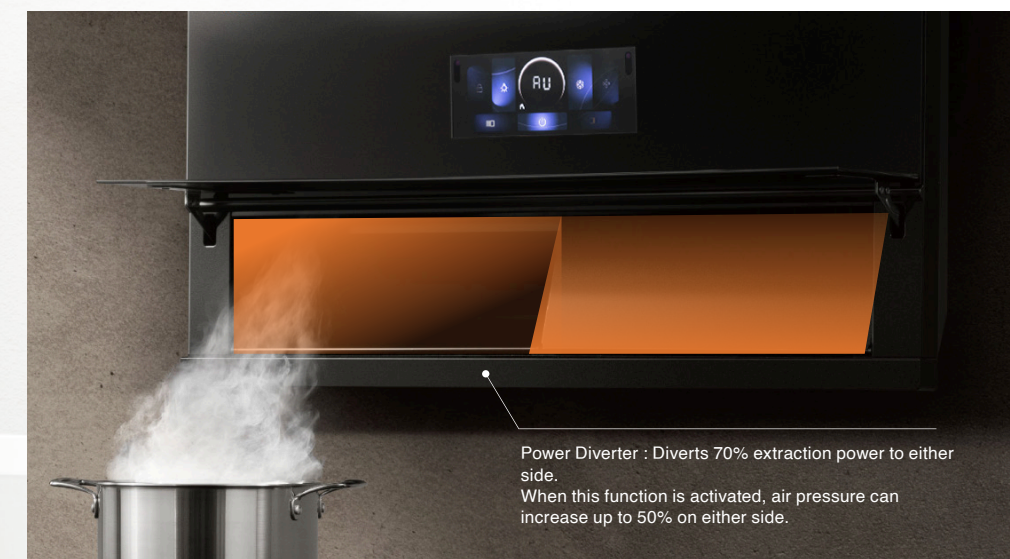

Its 900mm-wide suction plate intercepts cooking smoke and extracts it before it spreads.

Smart Air Diverter For More Precise Control

Intelligent air distribution according to the volume of cooking smoke

With a touch of a button, the FOTILE X-Series can focus its extraction power to either side of the hood, depending on where cooking smoke is concentrated.

From stewing to stir-frying, the FOTILE X-Series concentrates extraction power to extract cooking smoke while minimising noise for a more peaceful cooking experience.

Power Diverter : Diverts 70% extraction power to either side.
When this function is activated, air pressure can increase up to 50% on either side.

More Powerful, Better Efficiency

True Strength Lies In Choosing The Best Path

Rapid Straight-Line Cooking Smoke Extraction with BLDC Motor.

The Brushless Direct Current (BLDC) motor has a maximum static pressure of 1480 Pa that handles long and winding air ducts and complicated installation spaces with ease; Its maximum air flow of 1600m³/h refreshes all the air in a kitchen within 1.5 minutes; The rear extraction design allows the extraction motor to rotate 180°, actively reducing the distance of cooking smoke and extracting it in a straight path.

Radical New Design For Unstoppable Extraction

3-Point Extraction System Creates A Shorter and Faster Highway For Cooking Smoke

The Venturi effect accelerates the flow of cooking smoke through the duct, widening the capture area and supercharging it; vertical pressure accelerates the cooking smoke in the duct, discharging it upwards along the way and creating inertial pressure; the Nautilus Air Passageway reduces wind resistance and noise. With the 3-point Extraction System, cooking smoke is collected, extracted and removed in a single uninterrupted path.

Max Static Pressure

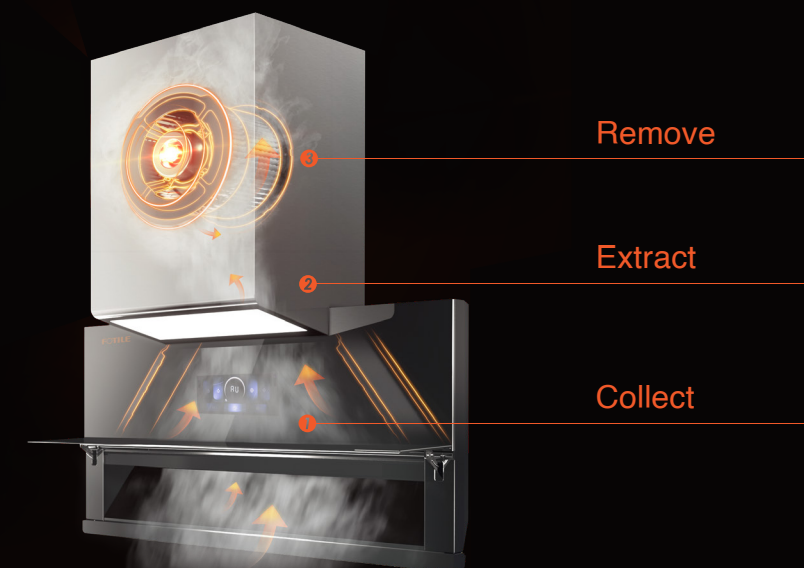

1480Pa

Max IEC Airflow

1600m³/h

Max Unrestrained Airflow

2800m³/h

Extraordinary Technology and humanized design

Illuminate Your Cooking Space

Enjoy wide, bright visibility with stage-inspired LED lighting that's easy on the eyes. Three adjustable brightness levels let you cook your way, in comfort and style.

No oil filter, just like new after wiping

New filter-free structures and glass bodies can be restored easily by wiping.

Make cooking quiet again

BLDC frequency conversion motor with multiple soft sound technology, minimum noise is as low as 39dB.

Smart SMOTION (Smoke + Motion) Detection

Toggle the hood on/off by waving your hand.

Delay Off Function

Delays shutdown for an additional 2 minutes after cooking to ensure all cooking smoke has been cleared.

Screen Lock Function

When cleaning and wiping the panel, long press the power button to prevent accidental start-up.

Color Touch Display

Smart color film screen with elegant touch and clear control

Hidden Oil Cup

Seamlessly integrated with the body for a clean, corner-free design.

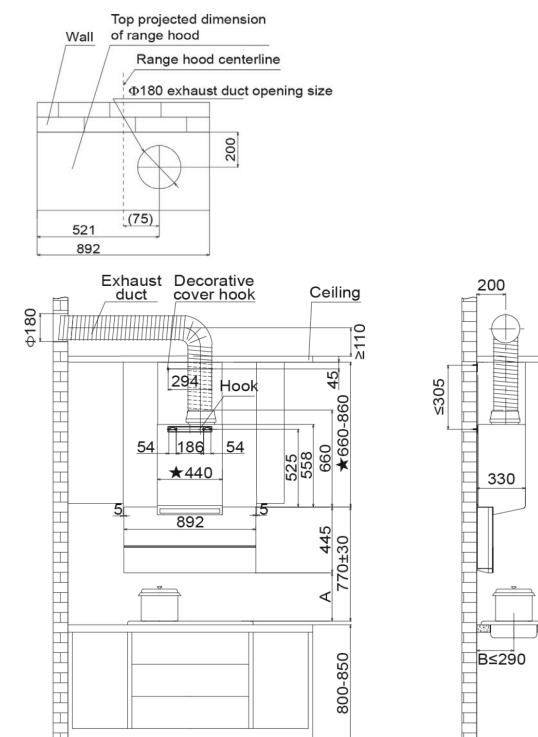

FOTILE X

Product	AMG9068
Certification	CB, SIRIM, MCMC
Power Supply	220-240V 50Hz
Type of Motor	BLDC
Motor Power (W)	570
Illumination Power in LED (W)	10W, 3levels adjustable
Speed Setting	Turbo + 2
Max IEC Airflow (m³/h)	1600
Max Unrestrained Airflow (m³/h)	2800
Noise Level (dB)	46/39
Max Static Pressure (Pa)	1480
Delay Off	2min
Control Type	Touch + Motion
Oil Filter	Filter Free
Panel	Color Panel
Screen Lock	Yes
Sync Function	Yes
Product Dimensions (W x D x H)	892 x 328 x 1105
