FOTILE Smart Kitchen Sink
Wash with Confidence,
Care in Every Meal

What is a “Smart Kitchen Sink” ?

It is more than just a deeper and larger sink. A smart kitchen sink transforms the sink area into a smart food preparation zone. It intelligently cleans fruits, vegetables, seafood, and meat with minimal effort, and the removable food cleaning tub instantly converts it back into a spacious sink.

Multiple Smart Cleaning Modes

Fruit & Vegetable Cleaning / Seafood & Meat Cleaning / Smart Soak / Seafood Fresh.

HydroPOP Wash Technology

Penetrates into food crevices to remove bacteria, pesticide residues, hormone residues and purines.

Healthy Purine Reduction for Seafood & Meat

Reduces purines in seafood and meat. Takes healthier food preparation to the next level.

Seafood Fresh

Keeping seafood alive until the moment you cook them. Maintains freshness for up to 8 hours.

HydroPOP Wash Technology

FOTILE's exclusive HydroPOP Wash Technology replicates the impact force of Niagara Falls. Large, high pressure, micron and nano bubbles combine to create a high-energy bubble flow system. The bubbles penetrate deep into food fibers and crevices, adsorbing and removing pesticides, bacteria, purines, and other harmful substances to protect your family's health.

- 99.9%*** Bacteria Removal
- 99%*** Pesticide Residues Removal
- 90%*** Hormone Residues Removal
- 30%*** Purine Reduction

*Sterilization Rate / Up to 99.9% Sterilization Rate & Pesticide Residue Removal / Up to 99% & Hormone Removal / Up to 90%: According to the official report by CHEARI (Beijing) Certification & Testing Co., Ltd.

*30% Purine Reduction Rate: According to the report by SGS-CSTC Standards Technical Services Co., Ltd. Ningbo Branch, calculated in comparison to the pre-wash value, the purine level is reduced by 30%.

Multiple Functions In A Sink

Before

After

Before

After

Before

After

Fruit & Vegetable Cleaning

Removes Residues While Preserving Freshness

Gentle cleaning without damaging the skin. After cleaning, ingredients remain fresh and vibrant. Even fruits with edible peels can be enjoyed with confidence. You can also open the cover during operation to observe the cleaning process.

Seafood Cleaning

Thorough Cleaning Made Effortless

No more struggling to reach hard-to-clean areas by hand, or worrying about cuts from crabs, prawns, lobsters, and other shellfish. Enjoy cleaner, safer, and more effortless food preparation.

Meat Cleaning

Healthy From The Inside Out

Goes beyond surface rinsing to help remove blood residues, hormones, purines, and other unwanted substances, providing a healthier cooking experience.

Smart Soak

Perform soaking of ingredients (for example: rehydrating dried goods such as Snow Fungus and Shiitake Mushroom), featuring automatic water filling / draining and timing

Seafood Fresh

Maintains short-term vitality of shrimps and crabs by intermittently injecting air. Shrimp and crab temporary holding time: Up to 8 hours.

Convert Into Regular Sink Effortlessly

When only regular sink is needed, FOTILE' s Smart Kitchen Sink can quickly revert to an extra-large 885mm sink. Washing oversized cookware becomes effortless and unrestricted.

Removeable food cleaning tub and basket

Advanced PVD Technology – Durable and Corrosion-resistant

Material features Food-Grade 304 Stainless Steel with a 3D Micro-embossed Texture, PVD Technology, and Nano Coating to enhance durability, reduce scratches, and make cleaning effortless

Food Grade 304 Stainless Steel 3D Micro-embossed Texture PVD Technology Nano Coating

Flexibility of Usage

Slide the food cleaning cover to the right to convert it into a cutting board (not recommended for heavy chopping directly on the surface).

Slide the food cleaning tub, basket, and cover plate fully to the side to use both the main sink and food cleaning tub simultaneously.

Product Specifications

Product Model	HT01L
Product Dimensions (W x H x D)	885mm*500mm*226mm
Power Supply	220~240V
Rated Input Power	40W
Operating Water Pressure	0.14MPa-1MPa
Inlet Water Temperature	Normal

Installation Diagram

- BEFORE INSTALLATION :
- 1. Table top cut-out size must be ready before installation
 - 2. Prepare a 13amp power point inside the cabinet
 - 3. Installation type : Top mount only
